

## Railings and Handrails

As specialist fabricators in this sector we offer a comprehensive range of designs in both modern and traditional materials. We recognise the value of offering a bespoke and often individual service.

From the most simple vertical bar to the most intricate design, the company have provided all types, styles and finishes to the building and construction industry, local authorities and the private sector.

Specialist fabricators in this sector

Most designs can be manufactured to reflect the site conditions. We can fabricate to accommodate rakes or stepped panels, radiused or non-standard length panels.

From simple vertical bar to intricate design

We offer a product range covering customer needs for both outside and internal applications. Not only in traditional style but including work in the most sophisticated modern materials.

fabrication of  
raked, stepped, radiused, or non-standard length panels

Pedestrian guardrails are covered by BS7818. Cole Ironcraft offer a choice of design that meets the needs of the market
