

Iron Gates

Unlock the experience and expertise of Cole Ironcraft.

In the modern world greater emphasis is being placed on security than ever before. Entrance gates fulfil an important role across a wide range of designs and styles.

Wide range of designs and styles

Here at Cole Ironcraft we can draw on our many years of experience fabricating and installing gates of vastly different types in an equally wide variety of settings.

Unlock the experience and expertise of Cole Ironcraft

In addition to the traditional approach we can now offer a comprehensive service in gate automation and entrance security systems.

We also offer a full range of gates to match all major security fence systems. These include steel palisade, weld mesh, chain link, expanded metal or other more bespoke types.

Gate automation and entrance security systems

We offer a choice of finishes including...Shot blasting, zinc spray, primer undercoat, gloss painting, galvanising & polyester powder coated.
